It was felt unanimously by the Committee that the A.G.M. had been one of the most successful A.G.M.'s in recent years. The two main topics concerned major projects to be carried out at Tyn Lon and the issue of ensuring a steady flow of new members to the club. The Committee want to maintain the momentum created by the discussions at the A.G.M. as an active policy throughout the coming year and would welcome any comments or suggestions that members would like to put forward particularly concerning the following items;

1. New heating provision for Tyn Lon - Agreed as necessary at A.G.M. (works to be started shortly).
2. Installation of Gas tank to supply kitchen and other requirements as necessary - Agreed as necessary at A.G.M.
3. Overhaul of plumbing at Tyn Lon.
4. Possible full rewire at Tyn Lon.
5. Recruiting new members.

I am sure that you will agree that Tyn Lon is the greatest asset of the Club and hence maintenance and improvement will be top of the agenda for this Committee with members suggestion and comments playing a major part.

The Annual Dinner was a great success with everyone dressed in black and red (lady birds, cowboys and clowns to name but a few!) food was good and only a short staggering distance to the tents in the Marquis of Granby's hotel gardens! If anyone has ideas for next years Annual Dinner Venue please let the Committee know as soon as possible.

Last but not least Sue Traynor needs more items to go in the Ceunant Magazine - come on! Don't be shy! We want to hear about your climbing/trekking or sightseeing jaunts across the globe, stories, poems, cartoons etc. URGENT!

Look forward to seeing you at these indoor and outdoor meet venues!

Steve Coughlan
